# Your Partner in Managing Cost and Ensuring Quality

Missouri Slope Lutheran Care Center offers a complete range of post-acute rehabilitation services that help our patients restore, compensate or adapt function. Combining a data-driven, analytical approach with practical, clinical experience, we make smart clinical and operational decisions to help manage risk across the continuum of care. Our innovative approach to rehabilitation and nursing results in quality outcomes which lower the cost of care, reduce rehospitalization rates, and shorten patient length of stay.
